

RED RUSSIAN KALE

MICROGREEN SEEDS

PRODUCT OVERVIEW

Red Russian Kale is a fast and easy to grow microgreen variety. Grow in mild conditions for best results. Add a pop of purple colour to your dishes. The mild flavour makes it good choice for sandwiches, salads, wraps and raw food dishes. Can be grown hydroponically or in soil.

Features

- Suitable for microgreens and baby leaf production.
- Harvest under 10 days.
- Green leaf and purple/pink stems.
